

ATTRACTIVE TERRITORIES FOR A SUSTAINABLE WORLD DEVNET TOKYO EXHIBITS AT THE KIP EXPO PAVILION

Within the context of the partnership agreement established between DEVNET International, and the KIP International School, an exhibition partnership was formally established between DEVNET Tokyo Foundation, the representative of DEVNET International in Japan at the KIP Pavilion in the EXPO Milan 2015 introducing from the perspective of Japanese culture visions about the theme of the EXPO about feeding the planet and using energy resources efficiently and with mindfulness.

The exhibits, which will take place from 1st to 31st August 2015 will encompass aesthetics, sustainable society principles, energy, and feeding the planet alternatives showcasing:

- Japanese Culture: Food and Liquor; Tea ceremony with cray art; Flower and/or Bonsai plant arrangement; Print art and classic – Genji Story in Modern Ukiyoe.
- Technology made in Japan for future society: Disease preventive food (Medical theory and supplemental food); Reuse of rice bran for high nutritious food; Air-conditioning system based on geothermal heat; Intercropping Project in Laos; Energy and Water Plant Construction in Asia (T1-3) Streamlining Agricultural and Industrial Development.

The exhibits will incorporate a cooking show for degustation of Japanese gourmet food, and Japanese art classics.

The agreement was signed by Fumiyasu Akegawa, Director on DEVNET Tokyo, Luciano Carrino, President of the KIP International School, Arsenio Rodriguez and Lidia Peroni from DEVNET International.
