

## Partnership between EURADA and the KIP International School

**May 2011**

A memorandum of Understanding was signed in Brussels on May 12<sup>th</sup>, 2011 between EURADA, the association of the European Regional Development Agencies, and the KIP-UN Initiative, formalizing the EURADA participation in the creation of the International School for the Millennium Development.

The memorandum establishes the appointment of Mr. Christian Saublens, EURADA Director, as member of the Board of the KIP-UN Initiative, and the involvement of the 120 Regional Development Agencies associated with EURADA, to the School activities.

The agreement is the result of a fruitful cooperation between EURADA and the ILS LEDA Program, which is part of the KIP-UN Initiative. EURADA was one of the founders of the ILSLEDA program in 1998 and it has been collaborating to develop tools, to support ILS LEDA training initiatives, to carry out joint projects and programs and to link its members with the Local Economic Development Agencies belonging to ILS LEDA network
